INDEX OF TECHNICAL SECTION, VOLUME 79, PAPER TRADE JOURNAL

(July to December, 1924)

COMPILED BY CLARENCE J. WEST, CHAIRMAN, COMMITTEE ON ABSTRACTS AND BIBLIOGRAPHY

As in preceding indexes, the pages in the following index refer to the continuous paging of the Technical Section and have no relation to the paging of the individual numbers of the PAPER TRADE JOURNAL. In the present volume, pages 87 to 97 inclusive were repeated (numbers 10 and 11) and for indexing purposes the pages in number 11 are designated as a; pages 175 and 176 were also repeated and those two pages in number 13 are likewise designated with an a. References to abstracts are preceded by the letter A, those to patents by the letter P. Other entries refer to original articles appearing in the Technical Section; author entries for these articles are in capitals. No author entries are given for the abstracted articles.
